

I am writing to protest the Low Power FM station expansion. This could affect my ability to get K-Love radio on 91.5 and 104.3 in my area. K-Love is listener supported. I pay for an hour of time monthly to keep it on the air. This is the only radio station I listen to and I listen to K-Love all over the country as I travel. It does serve me as a resident of the local community. I and thousands in my area would be impacted if an LPFM broadcaster displaced K-Love. There is such support for K-Love that it is totally privately funded on local stations all over the country--that proves the demand for the service provided by K-Love. I would be extremely upset if action is taken that takes away my freedom to listen to a station that meets my need for positive Christian music that my husband and I financially support. Sincerely, Diana Boyer
